

THE VOYAGER

ERGON MYKONOS SPRING / SUMMER 22

The collection for ss22 entitled “Voyager” was created during a period when traveling seemed difficult and not as carefree as it used to be. But travelling, can also be imaginary - an escape from everyday life. Reclaiming what we had for granted our inspiration came from the counterculture of the 70s. We researched the beat generation and the glam rock scene; the inteligenza culture of Greece during the 70s, the symbolic almost child-like paintings of the Greek painter Akritakis and the avant-garde designer Tseklenis. The Voyager collection encloses memories from the 70's and transforms them into timeless symbols, overwhelmed with emotions and primitive innocence.

Through the elaborately designed patterns everyone will be able to identify the journey back in time and place, recognize the Greek spirit, understand the relationship between art and fashion. The iconic symbols of Greece such as the Cycladic idol, the impressive embroidered folklores, the traditional Cycladic architecture of our islands, are expressed with the unique aesthetics of 'ergon Mykonos in this year's patterns.

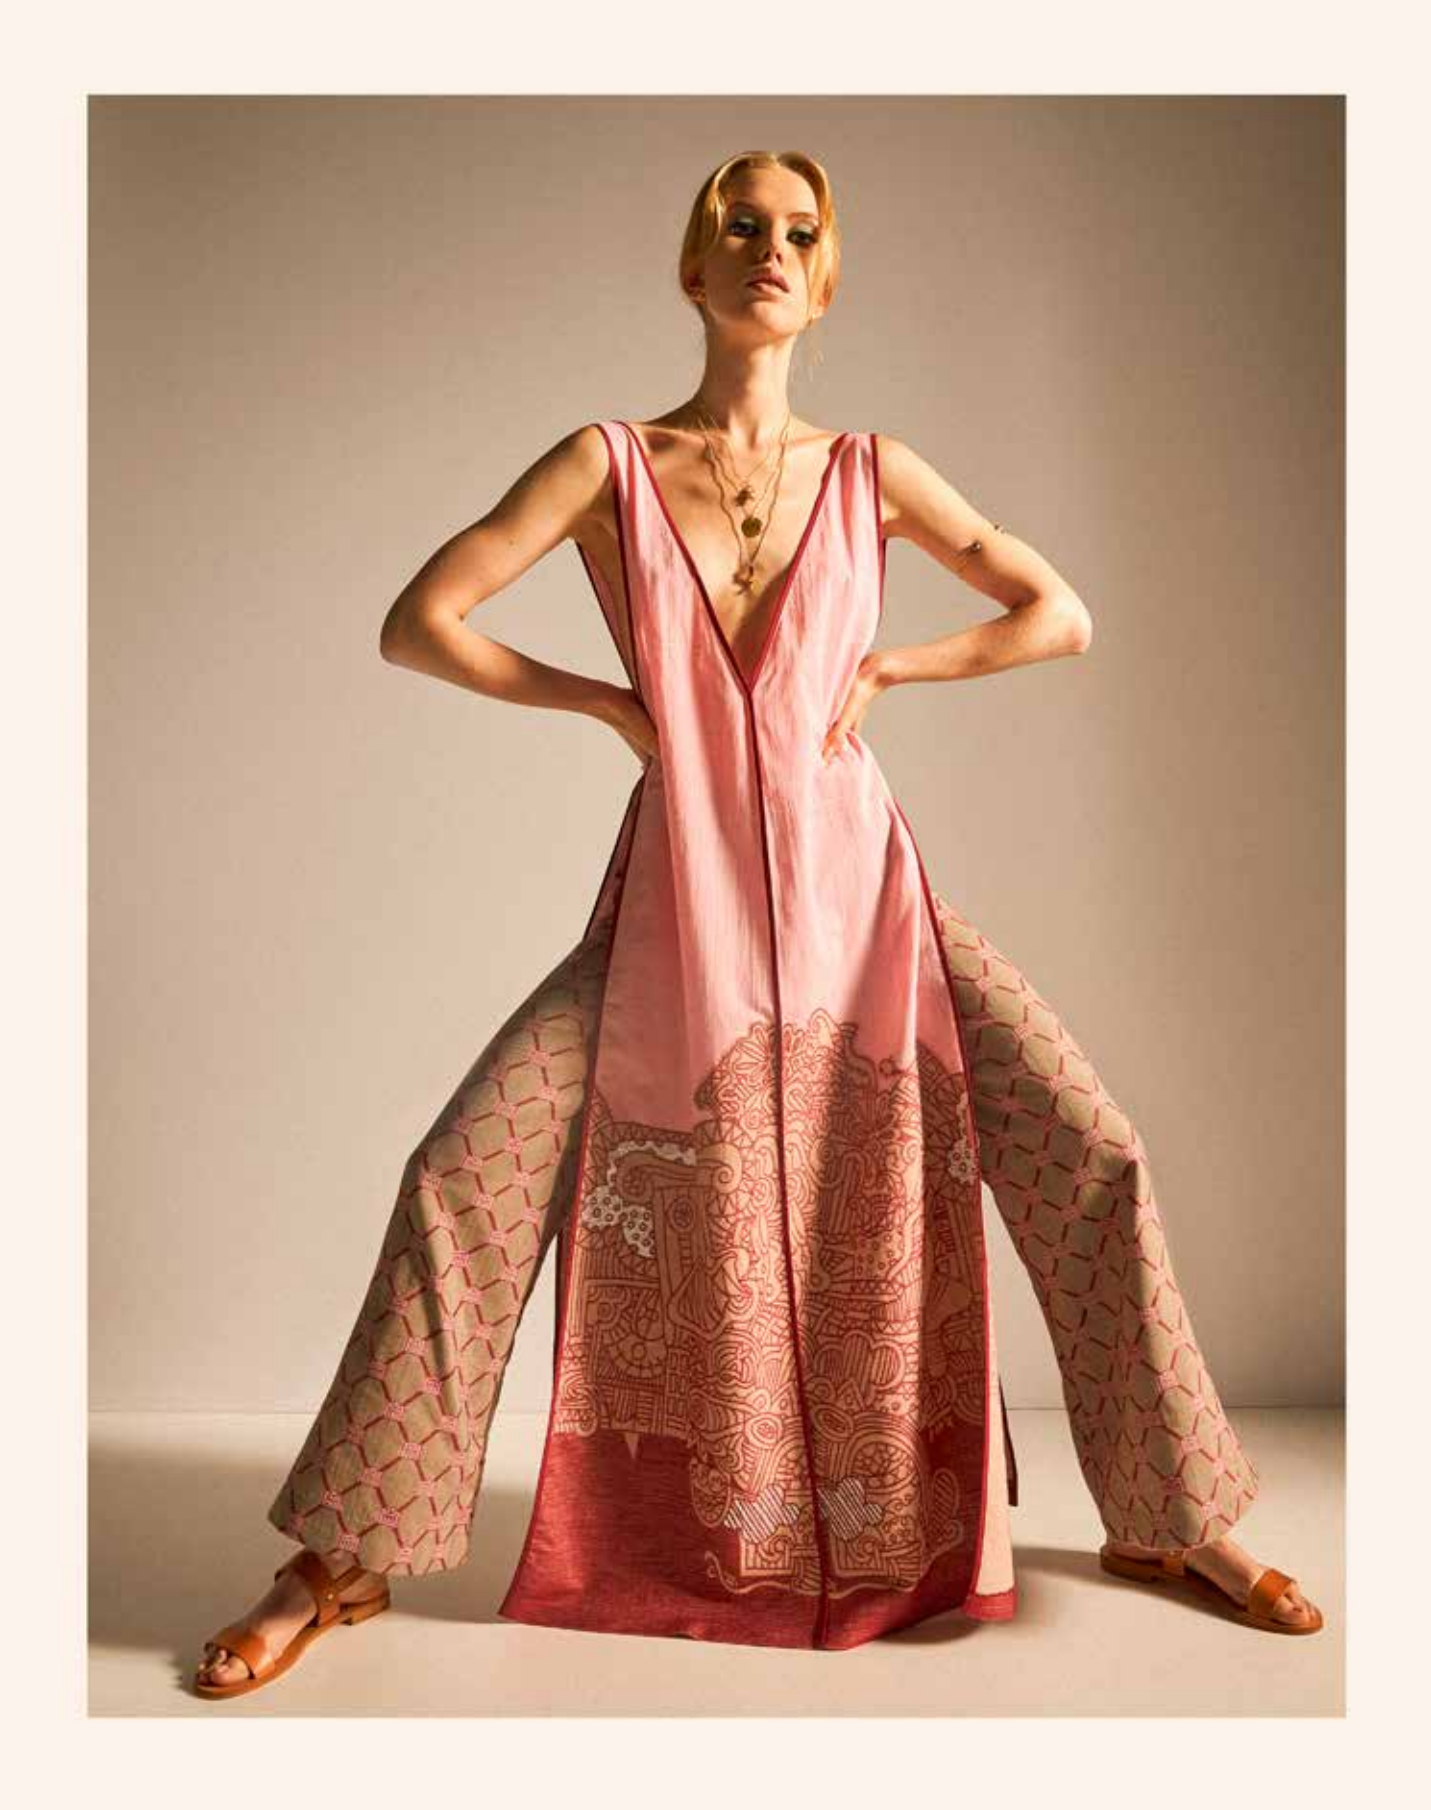

Framed '22

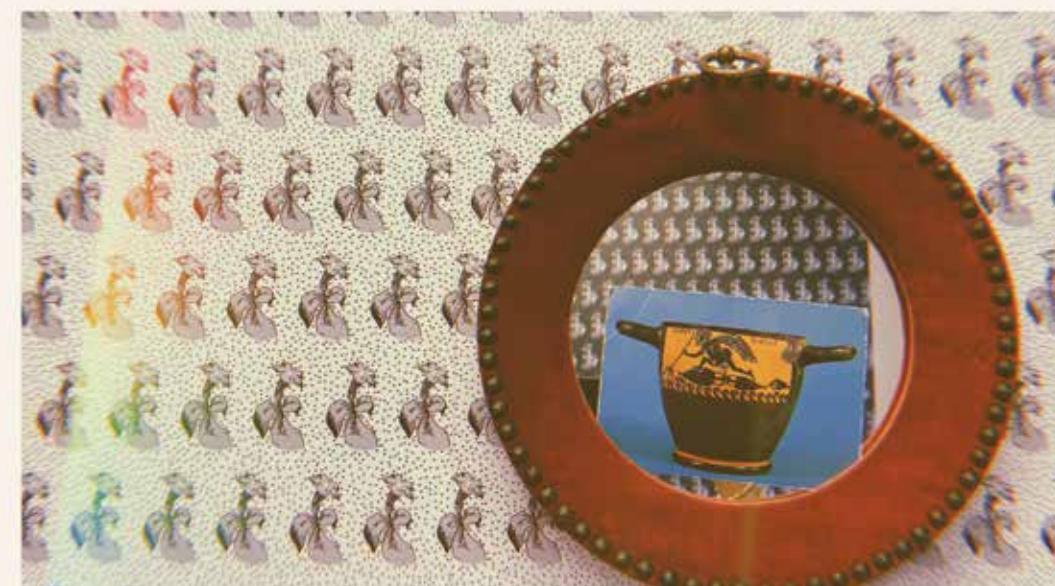

Just for one day

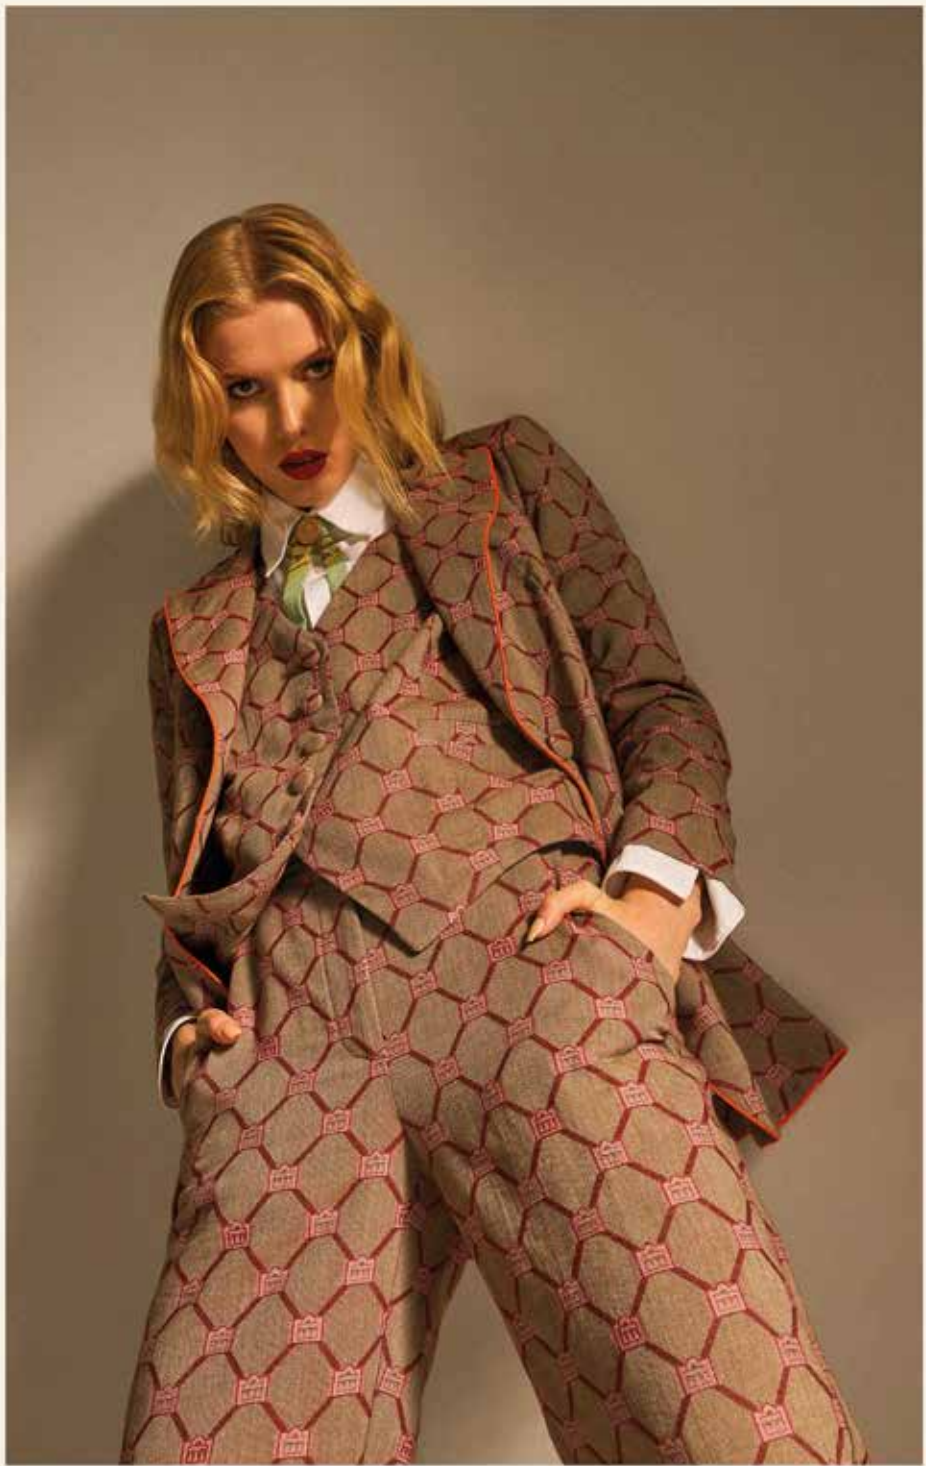

to me you are
a work of art!

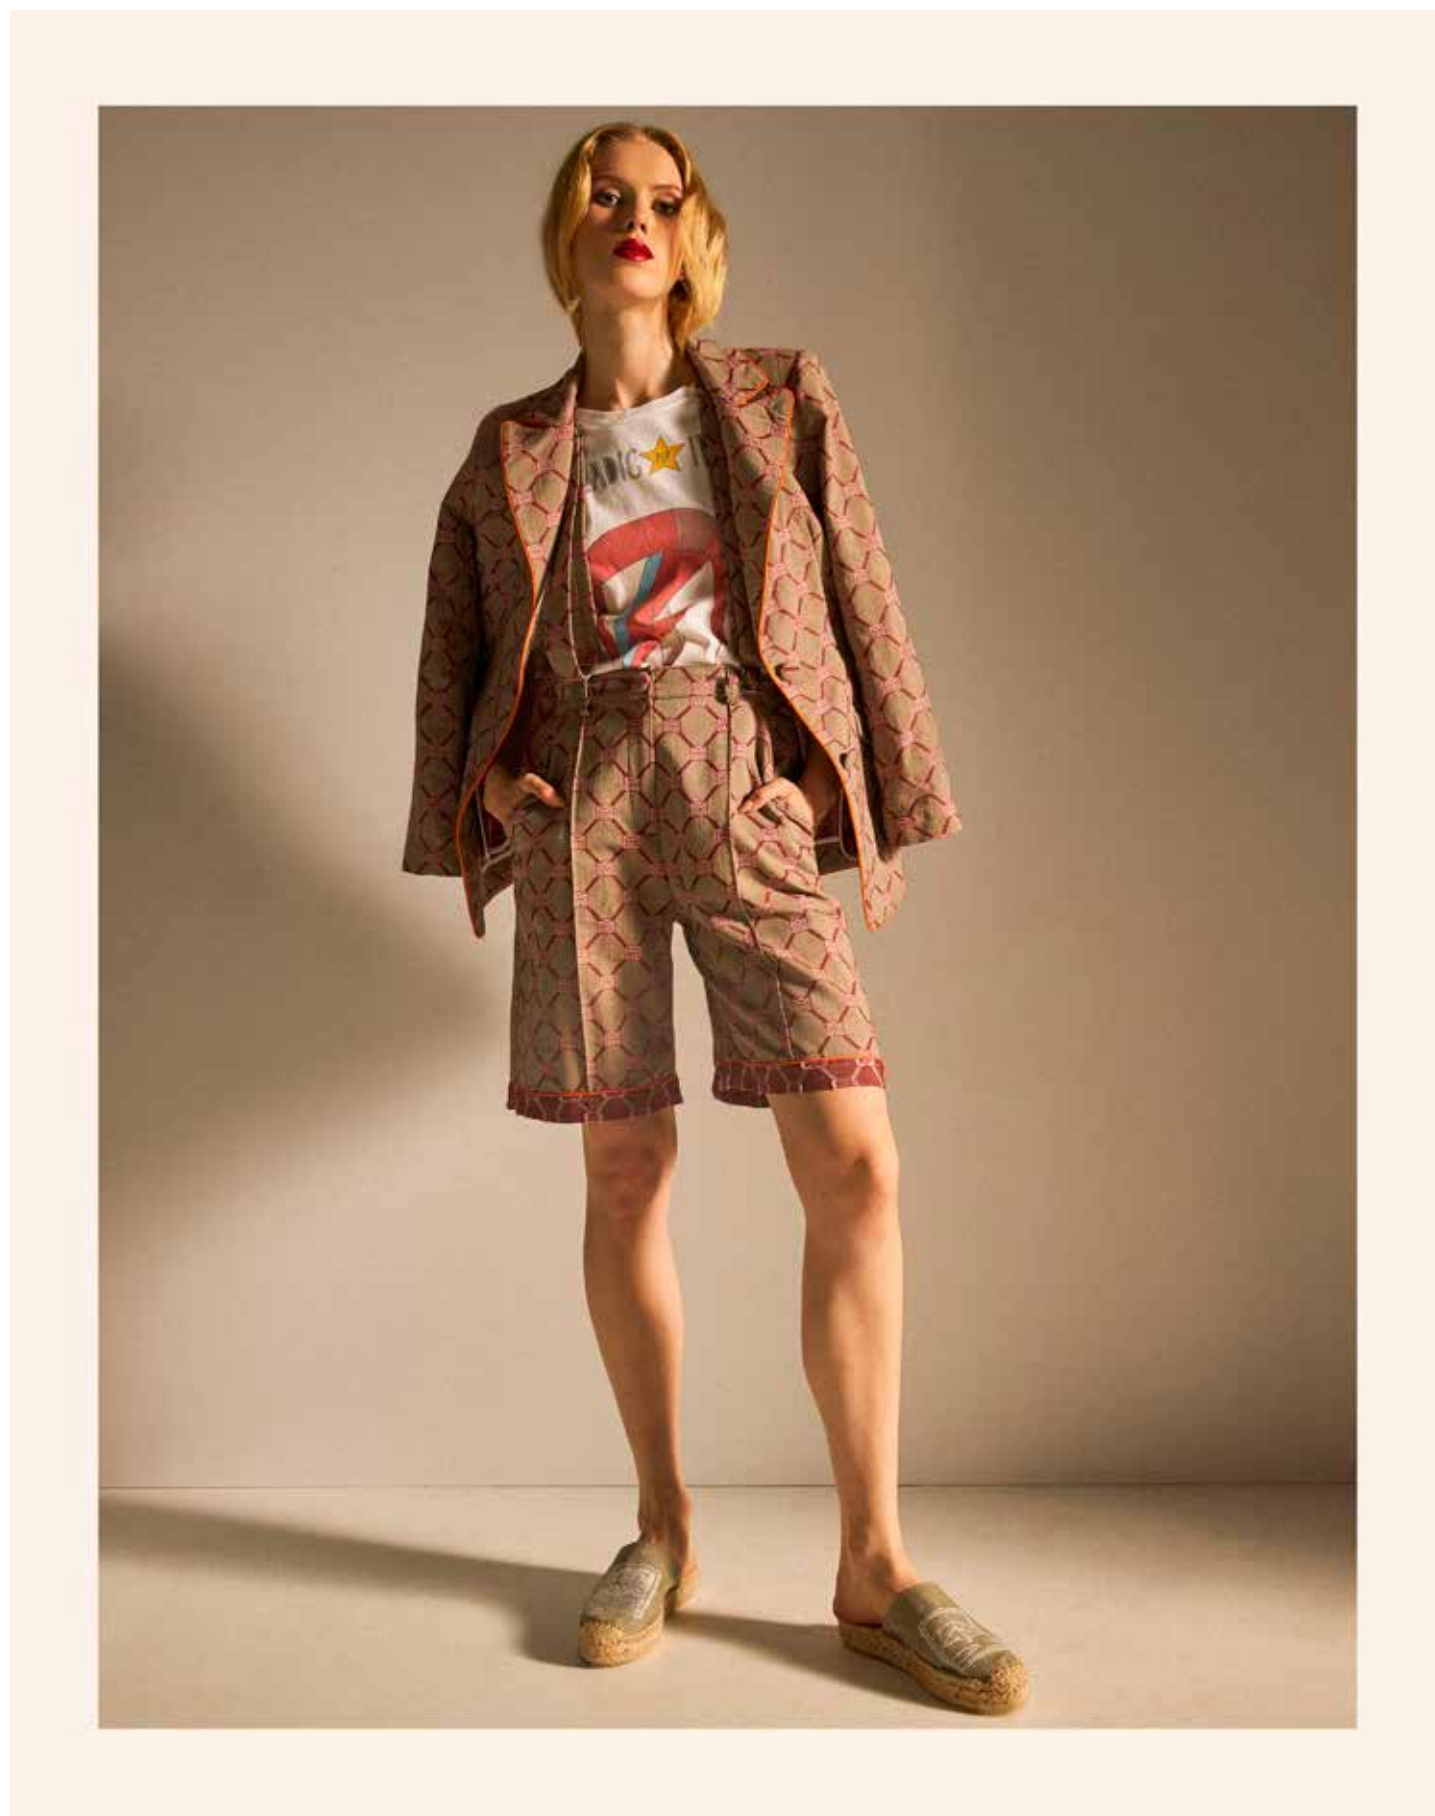

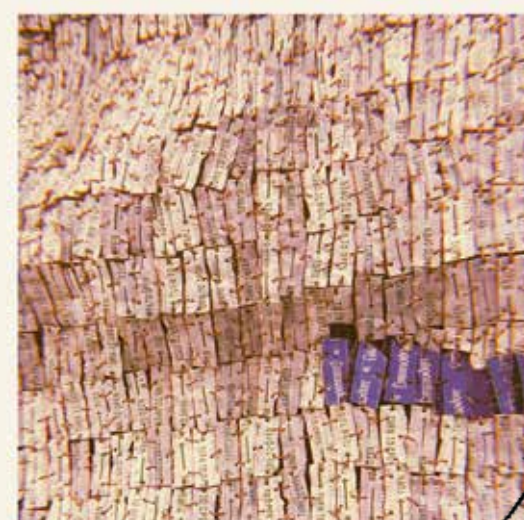

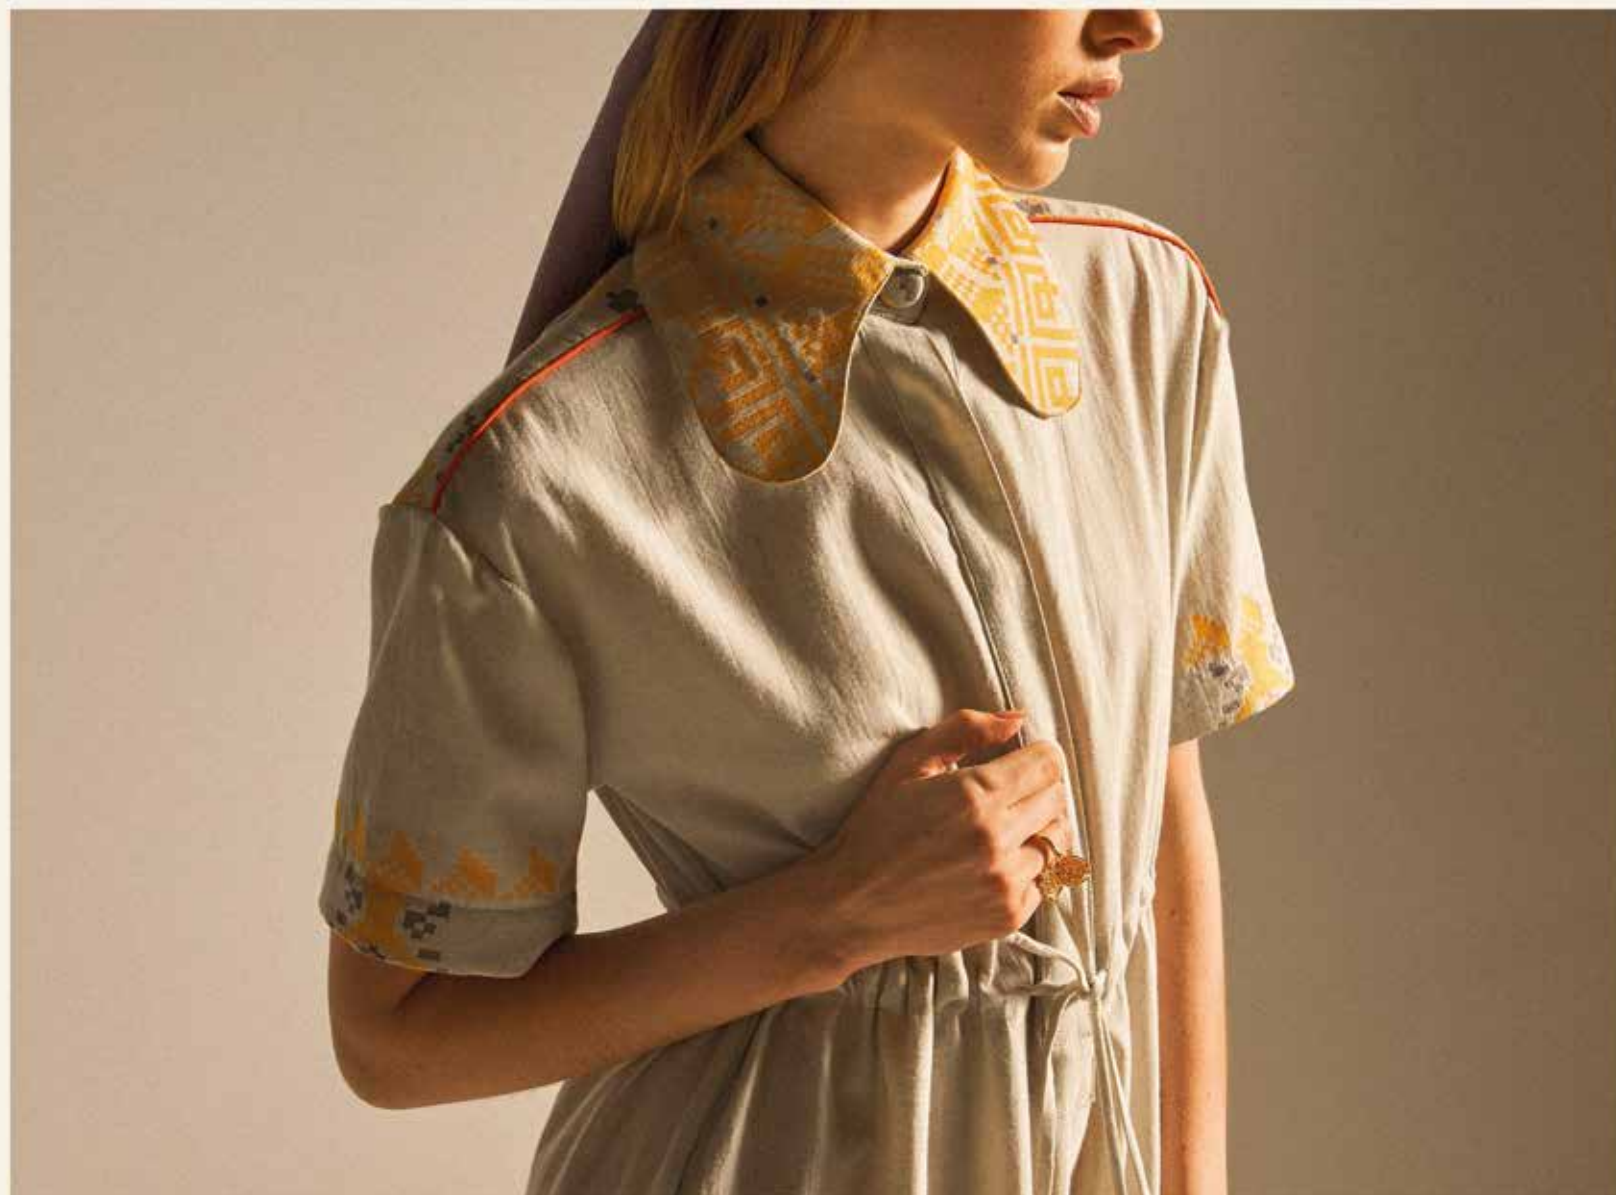

For years and years
I roamed —

I'd like to be a gallery
put you all inside
my show

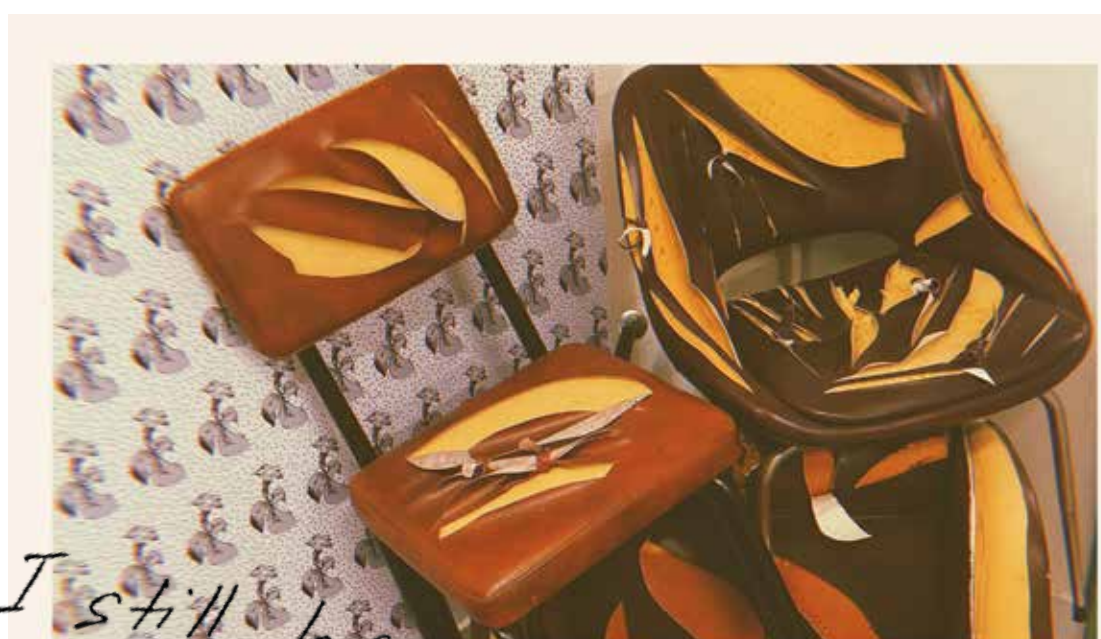

From me and you

there're worlds to part

Oh, I still love you
only slightly, only slightly less
than I used to, my love

In the event that
this fantastic voyage should
turn to erosion and we never
get old —
