FW2024

“SYNTHESIS” is a compound greek word from the prefix “syn” and the word “thesis”, it means to assemble, to combine, to create. We strongly support sustainability, therefore our FW capsule collection is the amalgam between garments of our previous collections with our new drop. “SYNTHESIS” is about reimagining our staple pieces with new ones. Every collection draws inspiration from Greek modern or ancient history, this one in particular sings the praises of Athens, the capital of Greece and the “home” of our studio.

Our original FW24 patterns are woven on quilted fabric creating outerwear and accessories ideal for a winter destination.
